

Dear Parents

Please refer to the order dated 01/07/16 on the subject compliance of JADSC's ten interim reports. There are some rumours spread by some unfavourable people going around based on this letter. We would like to bring to the notice of all the stakeholders of the school that the school's investment is on excellent infrastructure and student development. The school's expenditures are judicious and pertaining to the welfare of our student community. Parents are requested to please ignore the rumours. The school, in its 28 year old history, has always maintained cordial and warm relationship with the parents of our students. We are thankful for the co-operation of the parents in all our endeavours. The school is known for its integrity and academic excellence as we strive to give the best environment conducive for good quality education. While thanking all the parents, we once again request the respected parents to ignore the rumours and continue their invaluable support to the school.
